On June 10 & 11, 2016, security department web champions participated in a website training workshop at the ICT Corporate lab

The champions were drawn from all the central departments and university of Nairobi satellite campus. The aim of the web drive was to sensitive the champions on the different web parameters and uploading content on the websites.

Mr. Leonard Musyoka from the Office of the Vice Chancellor asked the participants to put more effort so that the University can remain at the top. He also noted that the central departments have only achieved 40% of the set targets. The web champions were asked to ensure that they achieve the set targets within the next three weeks. Each web champion was assigned targets that they must achieve weekly.

The heads of departments were also asked to provide all the necessary facilitation and resources that may be needed by the team to make this exercise a success.

Speaking at the drive, Deputy ICTC Director Paul Kariuki asked the web champions to take the matter seriously since they will be held responsible for their departmental sites. He also noted that by the end of the drive, we should have achieved the set objectives.

Expiry Date: Tue, 2019-12-31 10:23
