

Alarming Messages

Recent reports indicate that unverified messages have been circulating on social media to the effect that University of Nairobi students had staged demonstrations on June 14 & 15, 2016. The social media has carried these type of alarming messages in the past.

As a matter of fact, University of Nairobi students were not involved in the quoted demonstrations. The circulated messages are therefore erroneous, inaccurate and misleading. The messages were circulated with an ulterior objective of inciting the students to violence and ultimately taint the good image of the University.

You are hereby advised to be wary of alarming messages. You may find it necessary to validate such messages with the security office through telephone numbers 0717035268, 0731453263, 020-4913149, and 020-3318262 in future.
